Abstract

Prostaglandin agonists of formula (I), in which, for example, A is a sulphonyl or acyl group, B is N or CH, M contains a ring and K and Q are linking groups, methods of using such prostaglandin agonists, pharmaceutical compositions containing such prostaglandin agonists and kits useful for the treatment of bone disorders including osteoporosis.

Abstract:  
agonists, This invention relates to prostaglandin agonists, methods of using such prostaglandin  
disorders pharmaceutical compositions containing such prostaglandin agonists and kits containing such  
prostaglandin agonists. The prostaglandin agonists are useful for the treatment of bone  
including osteoporosis.
